SUMMARY

Passionate Software Engineer with 8+ years of experience in developing web applications and backend systems. Skilled at writing clear, concise code that is easy to maintain and troubleshoot. I believe I am best positioned as a hands-on technical lead or senior full-stack developer, and I have a significant amount of experience building e-commerce and web3 applications.

EXPERIENCE

Senior Full Stack Engineer
Myria
09/2021 – 02/2023

- ✓ Architecture and structured the NFT marketplace website,
- ✓ Developed from scratch L2 wallet app which interacts with metamask wallet and embed it into the NFT marketplace website.
- ✓ Designed and developed admin portal which can manage nft collection and all the nfts,
- ✓ Improved performance (FCP, LCP, CLS, FID) by using CDN, optimizing images, reducing request overhead, deferring resources until later, etc so that achieve 10k users on the first day of deployment.
